

Forklift Spreader Bar

Forklift Spreader Bar - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader company in the world. They have been a devoted manufacturer of spreaders meant for various applications like for example the swop bodies, trailers and handling of containers.

ELME now has more than a hundred and twenty five staff with all engineering is done in house by way of using all the most up-to-date CAD systems and FEM tools. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-over the globe.

The ELME product series offers spreaders used for a variety of trailer and container handling operations. Some of their inventory include: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers as well as a huge range of additional parts.

Production and manufacturing of ELME products are established in highly automated purpose designed factory. In the year 2008, they made 1150 spreaders by way of making use of quality components to be able to ensure reliability and high standards. Major characteristics of ELME comprise design simplicity, market response and inventive modular spreader concept.
