

Electrical Parts for Forklifts

Forklift Electrical Part - Lift trucks can be particularly labeled to be used in hazardous sites. A marked lift truck denotes the design has met the lowest standards of ANSI/UL 558 utilized for engine powered lift trucks or ANSI/UL 583 used for electric trucks for the type of label put.

The use for labels utilized for lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Type Designations, Areas of Use, and Maintenance and Operation. Consult your local insurance provider and Fire Marshall for further info concerning the approved uses of industrial powered trucks in your application.

If the specific forklift meets the outlined criteria, labels may be attached. A labeled lift truck would show the type of designation located on the nameplate and will have a correctly corresponding label placed.
